

PRESS RELEASE

Rotkreuz, 4 April 2019

Mobility is doubling its One-Way network

Travel from place to place – and simply leave the car where it is: now possible between 29 Mobility stations throughout all of Switzerland, now including Aarau, Baden, Geneva, Lausanne, Neuchâtel, Fribourg, Biel and multiple stations in Zurich.

Mobility is continually expanding its variety of services. One solution particularly popular with almost 200'000 customers is Mobility One-Way: it allows for one-way journeys between all manner of different towns and cities throughout Switzerland. Mobility has now correspondingly increased the number of stations to around 30. Mobility Communication Officer Patrick Eigenmann is delighted about the development: "The expansion means that even more people will be able to travel easily and conveniently from A to B in the future. For our customers, One-Way is the ideal supplement to the standard Mobility offer and to our urban free-floating models such as Mobility Scooter. A subscription gives you a wide variety of mobility options at your disposal."

From A for Aarau to Z for Zurich

From today onwards, the following stations are now part of the Mobility One-Way network: Aarau Railway Station, Baden Brown Boveri Platz, Biel Railway Station, Fribourg Railway Station, Écublens EPFL/Parking Rivier, Geneva Cornavin Railway Station, Lausanne Railway Station, Neuchâtel Railway Station, Nyon Railway Station, Rapperswil-Jona Railway Station, Uster Railway Station, Yverdon Railway Station, Zurich Hardbrücke Railway Station, Zurich Tiefenbrunnen Railway Station and Zurich Wollishofen Railway Station.

They are supplementing the existing station network comprising: Basel Railway Station, Basel Airport, Bern Railway Station, Lucerne Railway Station, Olten Railway Station, Rotkreuz Suurstoffi, Solothurn Railway Station, St. Gallen Railway Station, Sursee Railway Station, Winterthur Railway Station, Zug Railway Station, Zurich Altstetten Railway Station, Zurich Airport and Zurich Main Station. "Our goal is to be able to integrate Geneva Airport soon too," Eigenmann explains: "Then we would be ideally positioned throughout Switzerland."

Fair prices

The 30 One-Way vehicles are particularly suited to shorter trips, travelling to Basel or Zurich airports or for journeys at times with limited public transport. The kilometre and hourly rates are billed at the same prices as the rest of the Mobility offer (combi category: CHF 0.80/km, CHF 3/h), plus a surcharge of between CHF 7 and CHF 29. This surcharge varies according to route length, season and load.

ABOUT MOBILITY

Mobility offers its 197'800 customers across Switzerland 2'890 vehicles at 1'480 stations. On top of this, it has 200 electric scooters in Zurich, One-Way cars for one-way journeys between cities and the Mobility Carpool ride-sharing platform. State-of-the-art technology delivers a self-service sharing system that is user-friendly, economical, fully automatic and available around the clock.
