

Confirmation persons accompanying the learner

The following persons attest with their signatures, that they are Mobility customers and that they observe legal requirements regarding driving with learners, as well as our [general terms and conditions](#).

Please note the terms and cancellation periods for the corresponding Mobility offer on our [website](#).

Two important pieces of information:

- Mobility vehicles are not approved for driving tests.
- Certain vehicles have electronic handbrakes that can be overridden by pressing the accelerator pedal again. These are not legally permitted for use by learner drivers. For this reason we provide the option of applying the search filter "suitable for learner drivers" when you are looking for a vehicle for your reservation.
